EXPERIMENT – 3

Objective :- Design of Google Logo using GIMP.

Step-1:- Create new template of size 1920x1080

Step-2:- Add a background layer and fill with white color.

Step-3:- Create horizontal and vertical lines using Guides taking positions as 50%.

Step-4:- Take Ellipse Select Tool at the fourth quadrant and draw a circle. Press ctrl tab to fill the circle in all quadrants. Fill the circle with dark blue color using Bucket Fill Tool.

Step-5:- Now add the selected circle to the path. Stroke the path so that the path line is visible to the surface.

Step-6:- Now using shrink tool shrink the circle by 1px.

Step-7:- Take a new layer and name it as text1.

Step-8:- Now add Text – "GOOD THINGS" to the layer.

Step-9:- Now add the Text along path so the text overlaps with the circle. Fill the text with colors.

Step-10:- Rotate the layer so the text is centre alingned and rotate it.

Step-11:- Add new layer named text1 and Add Text – "BAD EXPERIENCE" and add the text along path. Fill the text with color.

Step-9:- Now select the path of the circle and apply Alpha to Selection.

Step-10:- Delete all the paths.

Step-11:- Delete the background layer.

Step-12:- Import the google logo as a layer and fit inside the circle.

Step-13:- Using the Crop Tool, crop the image for the required size.

Step-14:- Export the image as "exp-3.png" and click Export.

Step-15:- Save the file as exp-3.xcf
